### **Coronavirus (COVID-19) Update – June 25, 2020**

#### *Helotes reports first COVID-19 death in the City*

Bexar County and the Helotes Office of Emergency Management are reporting 9 total positive cases of COVID-19 within the community. As of June 24, 7 people have recovered, 1 case is unknown, and 1 person has died. The deceased individual resided within the City of Helotes and is reported to have underlying health conditions. The City extends our condolences to the family and friends of this resident.

COVID-19 cases are on the rise in Bexar County. We must all work together to slow the spread of this respiratory illness. Social distancing, wearing face coverings when 6 ft social distance cannot be maintained, and good hygiene, such as frequent hand washing and disinfecting high touch surfaces, are the best tools to minimize the spread of germs, including COVID-19. Vulnerable populations, such as older adults or individuals with underlying health conditions are encouraged to remain at home as much as possible.

Anyone with symptoms of COVID-19, including fever, cough, or shortness of breath are encouraged to get tested. Visit the [COVID-19 San Antonio website](#) for more information and to find testing locations in Bexar County.
