### **Coronavirus (COVID-19) Update – May 27, 2020**

#### *Additional Services and Businesses Eligible to Reopen in Texas*

A new proclamation was issued by Governor Abbott that expands the services and businesses eligible to reopen in Texas. Each activity that reopens should follow the state's instructions for minimizing the spread of germs, including COVID-19. Learn more about the Governor's plan by visiting [www.gov.texas.gov](http://www.gov.texas.gov).

- Effective Tuesday, May 26 – Driver education programs may resume. In addition, food court dining areas within shopping malls may reopen with proper social distancing and hygiene practices in use.
- Starting Friday, May 29 — Water Parks may open, but must limit their occupancy to 25% of the normal operating limits. Some components of these water parks will remain closed, such as video arcades.
- Starting Sunday, May 31 – Recreational sports programs for adults may resume, although games or competitions shall not begin until Monday, June 15.

Minimum standard health protocols outlined by the Texas Department of State Health Services (DSHS) are recommended for all reopened services and businesses. Visit the [Open Texas website](#) to review the requirements for each business or activity type.
